-**New road block for 411 Connector's 'preferred' route?** The [Coalition for the Right Road](#), operated by the Rollins family's PR crew, believes a July conclusion by the U.S. **Department of the Interior** that the Dobbins Mine site is eligible for historic preservation could be a game changer. Dobbins is in the current path of the much-delayed access known as Route D-VE.

-The media release states: "According to the Keeper of the National Register, the mine site is worthy of protection because of its association with 'late 19th and 20th century mining operations and for the role this area played in producing large quantities of manganese ore for the manufacturing of steel,' especially during the war years.
